About Me

I hold a Bachelor of Technology(B.tech) degree in Computer Science from MUMBAI UNIVERSITY, where I have gained a comprehensive understanding of key concepts such as website development, software development, networking, and system architecture. My academic achievements are complemented by my principal and dean of my college i have won many prizes and trophies for projects. With a solid foundation in computer engineering and a proven track record as the Sports Secretary of Rizvi College Of Engineering, I am eager to further my academic and professional journey in this dynamic field.
